MOTOROLA TALKABOUT® T7100 TWO-WAY RADIO SERIES

Designed for serious outdoor enthusiasts, the advanced T7100 boasts clear signal communication and a range of up to 7 miles*. Available in Silver or Camouflage, this two-way uses a drop-in charger or 4 AA batteries to ensure that you always have enough power for even the longest hunting trips. By adding an oversized backlit display for easy viewing in the dark, and a large speaker for superior sound quality, the T7100 will become an essential part of your equipment.

FULL-FEATURED PRIVACY

No need to worry about cluttered channels. The T7100 has a 22-channel capacity with 38 privacy codes for 2,178 combinations. The built in Priority scan quickly finds the most private channel in crowded environments. Additionally, the QT™ (Quiet Talk) interruption filter can prevent radios from other manufacturers from being heard on your channel, ensuring a private conversation for your group.

COMPANDING

The T7100 has a Motorola exclusive feature —“companding”— a sophisticated digital technology that filters out static between words. This allows the radio to deliver noticeably clearer transmission.

PRICING

Manufacturer’s Suggested Retail Price is \$79.99 (NiMH) per pair. Also available: Model T7150, with MSRP \$99.99 per pair.

***How far can I expect my radios to communicate?** The communication range quoted is calculated under optimum conditions, with an unobstructed line of sight. Actual range will vary depending on terrain and conditions, and is often less than the maximum possible. Your actual range will be limited by several factors including, but not limited to, terrain, weather conditions, electromagnetic interference, and obstructions. Please visit www.giantintl.com/range for further information.
