As Tough as it Gets

Motorola Talkabout® T7400 Two-Way Radio Series

The most rugged, shockproof design, up to 7-mile range,* crystal clear communication and NOAA Weather Alerts make the T7400 an ideal choice for outdoor sporting. Combining General Mobile Radio Service (GMRS) technology with Motorola engineering, this radio is the perfect companion on any adventure.

Rugged Outdoor Styling

The Talkabout® T7400 features a rugged outdoor case and is designed to be one of the most advanced of the Motorola line of two-way radios. The rugged grips and holster-style carry case protect the radio during any outing.

NOAA Weather on Demand**

Weather conditions, tides and forecasts when you need them most—outdoors. A press of the button gives the information every outdoor enthusiast should know.

Full-Featured Privacy

The Talkabout® T7400 has full 22-frequency capacity, and unlike our competitors, it has 99 Motorola exclusive privacy codes, so there are more channel combinations than ever. Our “Priority Scan” quickly helps you find the most private channel

to give you a clear, interruption-free conversation. And when you enable the Talkabout’s exclusive QT noise filter, radios from other manufacturers can’t access your channel.

Hands Free Accessories

This model features an accessory connector for headset operation, as well as a no-accessory hands-free capability.

Companding

The Talkabout® T7400 has a special feature—“companding”—a sophisticated digital technology that helps eliminate the static hiss between words. This technology not only extends the effective range of the radio but also delivers clearer transmission quality.

Power to Spare

These radios are sold in pairs—just charge up the NiMH-powered rechargeable units or drop in four AA batteries and you’re ready to start communicating.

Pricing

Manufacturer’s Suggested Retail Price is \$109.99 (AA) or \$139.99 (NiMH) per pair. Also available: Model T7450, with Advantage® MAX-4 HD™ pattern and MSRP of \$159.99 per pair.

For additional information, images or to “test drive” a Motorola Talkabout® T7400 “Extended Range” two-way radio, contact: Hauser Group, 912-236-1192 or c.philbrick@hausergroup.com

*Tested range; your range may vary based on terrain, conditions and other RF interference.

**Service may not be available in all areas. Check with your local weather office for frequencies and details or visit <http://www.noaa.gov/hwr> for more information. This two-way radio requires an FCC license, as do all GMRS two-way radios. Specifications subject to change. The Federal Communications Commission has not approved this device. This device is not, and may not be, offered for sale or lease, or sold or leased until the approval of the FCC has been obtained.
